

Roadway/Roadsides TWG

Welcome

The committee on Maintenance shall develop and maintain appropriate information through: guidelines, manuals, specification, and other resources to address the maintenance and preservation of all classes of highways under the jurisdiction of the member departments.

This information shall cover such topics as:

- maintenance methods and practices
- maintenance inspection work
- equipment and practices

The committee shall also encourage maintenance performance records and reports that:

- identify design features that should be corrected as disclosed through maintenance problems and operation
- promote efficient and effective maintenance through improved management practices protect and enhance the quality of the environment
- include recommendations relating to roadside development and the preservation of the roadside.
