Survey for Committee Input to AASHTO Reauthorization Effort

Survey Response Due Date: Friday, June 29, 2018

Background

AASHTO has begun its process to develop recommendations to Congress for the next Federal transportation bill, which will be the successor to the FAST Act.

As part of this effort, we are seeking input from our committee members regarding issues, concerns, and challenges that are preventing you from doing your job as effectively as you would like. After each question, we have provided some examples to trigger your thoughts and ideas, but feel free to suggest other topics as well. **Please be as specific as possible** with your input, including the federal law or regulation related to your challenge, if known. Finally, even if you don't know which law or regulation is contributing to your issue, please tell us where you see roadblocks, slowdowns, or other frustrations in your job so we can discuss potential ways to address them.

If you would like to review some of the policy positions and resolutions that AASHTO has developed over the past several years for ideas, see the following links:

- AASHTO Policies since 2013 (including those developed in anticipation of the FAST Act): <https://tpf.transportation.org/wp-content/uploads/sites/35/2017/06/2017-09-28-AASHTO-Policy-Resolutions-Since-Oct-2013-1.pdf>
